

# Bird Feeder

## Young Widows

I thought I saw a snake wrest in your nest  
I saw him leave, but we never met  
Cut, cut, cut  
Yeah, it's only bit one time  
But it feels like it's still locked up  
And it's just like I told her  
And every bird that lived before her  
Cut string lose your step  
There's no ration that should let you get  
Cut, cut, cut  
Yeah, it's only bit two times  
But's it's scars last a couple years  
And it's just like I told her  
And every bird that lived before her  
Watch him slither by  
Watch him slither in and out  
He's the birdfeeder, yes he is  
He's the birdfeeder  
And it's just like I told her  
And every bird that lived before her.
