

# Knuckleduster

[Daniel Baranowsky](#)

What, say one word and you die  
And I'll make you see  
the real fucking bitch you've been  
You, you never see the death  
I outta show you way  
When i get along to kill you fucking bitch  
Go! So, you better step back  
Cause I ain't gonna tell  
To why you pull the pain from me  
What, and all I say is strong  
To you are true apart  
I tell you fucking bitch you died when i will fuck down  
Feel in together world  
I'll take it to me  
Asshole are shove me down (Hey), do you never let it go ? save from my time  
If I tell, knuckleduster beat you six feed under  
(So), so I kill you as fucking insane and I don't swear you see it again  
Did you know, knuckleduster beat you six feed under When i will fuck down  
Feel in together world  
I'll take it to me  
Never be some I afraid (Hey), do you never let it go ? save from my time  
(Bitch!) If I tell, knuckleduster beat you six feed under  
(So), so I kill you as fucking insane and I swear you see it again  
Did you know, knuckleduster beat you six feet under
