

Vitamin R (Leading Us Along)

Chevelle

Some are learned, many do
Cover up or spread it out
Turn around, had enough
Pick and choose or pass it on
Buying in, heading for
Suffer now or suffer then
It's bad enough, I want the fear
Need the fear 'cause He's alone
(He has become)
He's alone
(He has become) Well if they're making it
(Making it)
Then they're pushing it
(Pushing it)
They're leading us along
The hassle of
(Hassle of)
All the screaming fits
(Screaming fits)
And the panic makes remorse
After all what's the point
'Cause levitation is possible
If you're a fly achieved and gone
There's time for this and so much more
It's typical, create a world
A special place of my design
To never cope or never care
Just use the key 'cause He's alone
(He has become)
He's alone
(He has become) Well if they're making it
(Making it)
Then they're pushing it
(Pushing it)
They're leading us along
The hassle of
(Hassle of)
All the screaming fits
(Screaming fits)
And the panic makes remorse
Over and over a slave
Became over and over a slave
Became over and over a slave
Became over and over a slave
Well if they're making it
(Making it)

Then they're pushing it
(Pushing it)
They're leading us alongThe hassle of
(Hassle of)
All the screaming fits
(Screaming fits)
The panic held beforeWell if they're making it
(Making it)
Then they're pushing it
(Pushing it)
They're leading us alongLike a cancer caused
(Cancer caused)
All the screaming fits
(Screaming fits)
And the panic makes remorse
