Forever

Claude Kelly

I didn't know what it meant to be alone
I didn't know 'till the day you've gone
That i could ever feel this miserable
Without you here with me.But now I'm standing looking in the mirror
Wondering whatever happened to our love
Deep down I thought that there would always be an usSince you disappeared I know
That time won't wait for no one
You gotta say what you want
If you were here with me now, I'd tell you you're the one
'Cause you're the closest thing to an angel that I ever met
So don't you worry I'll never forget ... you.Although you can't be ... here by my side
I feel you near me ... when I close my eyes
So I won't let your memory ... come to an end
When I said forever, that's just what I meant.
Forever Yeaah
Forever Yeaah
Always in my heart foreverNow every moment I'm imagining your face
And all the little silly things you used to say
This is the pain that I can barely tolerate
Never thought it'd be this roughNow when I smile in front of people it's a fake
'Cause deep inside I'm crying for my baby
It's gonna be a while before I'm ok'Cause now that you're gone I know
That time won't wait for no one
You gotta say what you want
If you were here with me now, I'd say that you're the one
'Cause you're the closest thing to an angel that I ever met
So don't you worry I'll never forget ... you.Although you can't be ... here by my side
I feel you near me ... when I close my eyes
So I won't let your memory ... come to an end
When I said forever, that's just what I meant.Won't let nothing come between us
No matter how long or how hard it gets
Don't you know you are the reason ...
That I walk, I breathe, I live ... soAlthough you can't be ... here by my side
I feel you near me ... when I close my eyes
So I won't let your memory ... come to an end
'Cause when I said forever, forever's what I meant.
Forever in my heart forever
Forever in my heart forever
Always in my heart forever

Forever in my heart forever
Forever in my heart forever
Always in my heart forever
