It Hurts So Good

[Luminites](#)

I watch the stars, oh, one by one
Why you leave me so alone?
Oh why, oh why, you break my heart?
I watch the stars, I think of you
Oh, I'm just the biggest fool
Oh, why I let you break apart
Oh why, oh why, you break my heart?It hurts so good to be in love
You are the girl I'm livin' for
It hurts so good to be in love
Oh, I need you more and more
It hurts so good you're in my heart
I love you more and more each day
It hurts so good let's try a start
Oh, baby come what mayWhat's good for me is good for you
Oh, I'll never make you blue
Oh why, oh why, you break my heart?
From coast to coast and sky to sky
Oh, there is no reason why
Oh why I let you break apart
Oh, why, oh why, you break my heart?It hurts so good to be in love
You are the girl I'm livin' for
It hurts so good to be in love
Oh, I need you more and more
It hurts so good you're in my heart
I love you more and more each day
It hurts so good let's try a start
Oh, baby come what may
