

Love Somebody

Spensha Baker

Chorus:

Gotta love somebody
Touch somebody
Help somebody along the way
Maybe a little lady or a little baby
Just can't wait another day
Now if I keep it to myself everything God has done for me
How can I say?
That I love somebody
Touch somebody Help somebody along the way

Verse 1:

People call her a bag lady She could be somebody's grandmother
Forty years and her husband passed Now she's doing bad It's no wonder
She didn't like being on her own
So she sold her house
Now she's in a home
Stop by every now and then just to let her know she's not alone
Cause we gotta

Chorus

One look at the little girl and you don't wanna give her a chance
I Know she's got an attitude and apparently she's kinda fast
Well her daddy died and her momma's gone
Her sister's in another foster home
She never felt the love of a family so it's up to you and me cause we gotta

Chorus

So Tell meee

Bridge:

What you gonna do with yourself
Think about somebody else
Cause it could've been you
And What if it was you?

What if you want somebody to loveeee you?

Chorus
