Crystal Night

Buzzcocks

I read the news, you saw the headlines
I know your secret, do you know mine?
Somebody said they're getting closer
I guess we don't have all that much timeThey're lighting bonfires in the distance
You know something's in life will never change
So please don't say there was no warning
Just hold on tight, it's crystal night again, it's crystal night againThis lot won't stop with just your records
This lot won't stop with all your dirty books
This lot won't stop, don't need excuses
Don't like your lifestyle, don't like your looksThey're lighting bonfires in the distance
You know something's in life will never change
But, please don't say there was no warning
Just hold on tight, it's crystal night again, it's crystal night againI read the news, you're in the headlines
You've sold your secret, will you tell mine?
I hear a shout, they're getting closer
I guess we don't have all that much timeThis lot won't stop with just your records
This lot won't stop with all your dirty books
This lot won't stop, don't need excuses
Don't like your lifestyle, don't like your looksSo please don't say there was no warning
Just hold on tight, it's crystal night again, it's crystal night again
