

# The Way Of The World (Part 1)

## Wishbone Ash

Wishbone Ash  
Smoke Without Fire  
The Way Of The World  
Keep the wheels turning  
On this lonely road  
A slave of mother nature  
I've got to get back home  
Such a grey coloured nightmare  
Of what used to be so good  
Dreams and desires  
It's the way - the way of the world. See a light in the distance  
Going to show me the way  
Another road to be taken  
Another stage to be on  
Carry me, carry me  
A little closer home  
Dreams and desires  
It's the way - the way of the world. Stormy weather, take me to  
Back where I belong.  
At the airport, on the plane,  
Now I'm going home.  
Takes so long, flying high,  
I just love the way of the world.
