

Set Phasers To Stun (live at Projekt Revolution)

Taking Back Sunday

Say yes, say yes, say yes, say yes (say yes, say yes, say yes, say) I'm sorry it took me so long,

I'm sorry it took me so long,

(to come around, to come around)

I'm sorry it took me so long Your famous last words started once your

Fingers hit the snooze,

"Just nine more minutes please" (and they)

They all know where to find me

And the word that I said

"what a big mistake"

And the words you let out ("keeping me away")

Well I will never make another promise

(without you)

Well I will never make another promise

(with you in mind) So pace the stairs to your apartment

Like its where you want to be

(where you want to be)

Where you want to be

(where you want to be) I'm sorry it took me so long

I'm sorry it took me so long

(to go around, to go around)

I'm sorry it took me so long

I'm sorry it took me so long Well there's a secret I've been perfecting,

That's what I wondered "would you let me"

I'm comfortably confused (and you)

You've gotten so removed

You know I, I could take the friends of those filth

Ocean blue, paint em white now

(ohh you're gonna fall tonight)

Well I will never make another promise

(without you)

I will never make another promise

(with you in mind) So pace the stairs the stairs to your apartment

Like its where you want to be

(where you want to be)

Where you want to be

(where you want to be)

So pace the stairs to your apartment

Like that's where you want to be

(where you want to be)

Where you want to be
(where you want to be) Oh we would paint your sins on the ceiling
I keep them glued to my chest
It keeps me close like a promise kept
(say yes, say yes, say yes, say yes)
If I talk in my sleep, then you just keep trying
I like it enough if you just keep trying
If I choke in my sleep
If I choke in my sleep
(say yes say yes say yes say yes)
I'm sorry it took me so long
(say yes say yes say yes say yes)
I'm sorry it took me so long So pace the steps to your apartment
Like its where you want to be
(where you want to be)
Where you want to be
