Groove Me

Maximum Balloon

I want you to groove me, baby
Take us to stars that's miles away
Let's groove if you want to, ohh, nowAs I go off, don't get lost
We lack in the city of the gems
Kiss me off till you get near
A new city shall beganHold me down and catch this sound
Before it blows off in the wind
And realize in here the wise don't fear
For years we campin in, come onI just got this feeling deep inside of me
Groove me, baby
Won't you catch my love
It could offer something
Aha, aha, ahaI want you to groove me, baby
Take us to stars that's miles away
Let's groove if you want to, ohh, nowDon't give it up, dear, you're so sincere
The light lit up the room
In a deep space there's no return
I guess I'll see you in JuneLand of the queens, land of the kings
Let's rejoice and let's all sing
Take a vow or take this ring
Funky love, that's my thingI just got this feeling deep inside of me
Groove me, baby
Won't you catch my love?
It could offer something
Aha, aha, ahaThink about you every day every night
I know you want me, baby
Won't you catch my love?
It could offer something
Aha, aha, ahaCome to the lovers house
It won't be far
The lovers house at night
They go to sleep aloneThrow tissues in the air
The fire gather 'round
Her brother said to me she's not your cup of tea
Oh, what a mystery at night they go to sleep aloneI just got this feeling deep inside of me
Groove me, baby
Won't you catch my love?
It could offer something
Aha, aha, ahaThink about you every day, every night

I know you want me, baby
Won't you catch my love?
It could offer something
Aha aha ahaCome to the lovers house
Across the yard
The lovers house at night
They go to sleep aloneThrow tissues in the air
The fire gather 'round
Her brother said to me, she's not your cup of tea
Oh, what a mystery at night they go to sleep alone
