

World of Dogs

Death Grips

[Hook]

Its all suicide

World of dogs Ruthless and free

It's all suicide to me

World of dogs Its all suicide [Verse]

You live in hiding

You're climbing the walls no privacy

I'm trying to survive but I'm dying die with me

Blow out the lights take your life

Ride the falling sky with me

Falling inside of me Its all suicide to me

World of dogs Its all suicide [Verse]

World of dogs gone mad

Above the law in your ass

Fire trash meltdown I'm not here

I'm world of dogs infrared

Tear me apart left for dead

But I'm not dead yet

Sickem sickem yes World of dogs Ruthless and free

Its all suicide to me [Verse]

Cut it

Don't tell no one no one can know come closer

I'm almost over lower sinkholer

I'm nothing feed me to this world of dogs

Barely breathing in this world of dogs

Foam of feral reality forming on mountains of teeth

Devour the hand spit out the leash

Crown the beast my throne's the street

Too cold to sleep I kill myself I feel no pain

I'm obsolete World of dogs
