

Miracle Man

38 Special

You say you turned your life around
You got it all worked out
You say the search for higher ground
Ain't what you're all about And still you're reaching in the dark
For the one who holds the key
But all your so called heroes
Ain't what they seem to be And maybe what you wanted
Ain't exactly what you need You can lose your heart a thousand times
Lookin' for your Miracle Man
You can try and change the storyline
Hopin' things will be better then But, when you look to a higher love
To save you where you stand
It's only then you'll find your Miracle Man No satisfaction in your world
It's left you all undone
The happiness is in you, girl
Don't give it up for no one You know it's time to break down
You know it's time to lose control
And trust the one who loves you
To your heart and soul And knowin' that your needed
Is all you need to know You can lose your heart a thousand times
Lookin' for your Miracle Man
You can try and change the storyline
Hopin' things will be better then But, when you look to a higher love
To save you where you stand
It's only then you'll find your Miracle Man He's not on any corner
It's hard to track him down
You won't find the answer
Walkin' the streets of this town
Try lookin' inside yourself You can lose your heart a thousand times
Lookin' for your Miracle Man
You can try and change the storyline
Hopin' things will be better then But, when you look to a higher love
To save you where you stand
It's only then you'll find your Miracle Man
