

Something Beautiful

MADELIN

VERSE ONE:

I was lost
But you found me
Drowning in
The never-ending
I just needed someone to find
Everything
Felt so empty
Till you came
Around and showed me
I'm still alive

PRE-CHORUS:
It's a feeling I won't fight
Didn't search for you that night
This could be something beautiful
Out of breath but oh so ready
We're gonna run this town, baby
This could be something beautiful...

OH OHCHORUS:

This is something so beautiful
Something so unbelievabele
Not everyone finds the
Love of their life but
I found something beautiful

VERSE TWO:
So confused
But it's so clear
Falling is
My only real fear
I just want you in my life
Everyone
Always told me
To have love
Your heart's gotta bleed

So I guess you're the knife

PRE-CHORUS (x3):
This is something so beautiful
Something so unbelievabele
Not everyone finds the
Love of their life but
I found something beautiful

OH OHOUTRO:

OH OH (x4)
