

Mad For It

Shootyz Groove

I would hate to grab the mic and sound like the next man, or the last man,
That's why when you're swinging, I swang and swung,
Everthing already been done, so when you see us on stage,
Son it's all about the fun, yeah fun,
Electric guitars, bass and drums, type of illness,
Primo pulls a sample from, yeah I rhyme with twist and turns,
Like the Guggenheim, you'll be left behind, as we're on an incline
You see this be the third time singing on that line with the dots,
Some people call it funk, rap, rock, or pop,
Others say alternative and label it a fusion, clueless but were you true to this
Go to get your fill
Do what you will
Me, I going at it like its time to kill
I'm seeing what I'm wanting and I'm grabbing it
You heard it right here
Yo! I'm mad for it
Go get your fill
Do what you will
Me I'm going at it no time to chill
I'm seeing what I'm wanting and I'm grabbing it
You heard it right here
Yo! I'm mad for it
We getting blessed yo, so let your stress go
Why you wanna carry such a heavy cargo
We are those Santos and Diablos, prepared to flex so,
What do you want to know,
Yo! I can serve your spirit on a platter pronto quickfast
I been born to blast
Many praise the calf of gold, sold their soul
And so they feel the wrath, you do the math
Some walk upon a crooked path, now look at that
Trying to stay strapped and packed like Arafat
But matterfact, they never knew science
When I hop up on the microphone
I do it like a giant
Go to get your fill
Do what you will
Me, I going at it like its time to kill
I'm seeing what I'm wanting and I'm grabbing it
You heard it right here
Yo! I'm mad for it
Go get your fill

Do what you will
Me I'm going at it no time to chill
I'm seeing what I'm wanting and I'm grabbing it
You heard it right here
Yo! I'm mad for it
