

It's a Stealer

DTCV

How can it be?
How could you?
How could we?
Sounds familiar
I'm so hard to find
Harder to defy
I'm a triple threat
High on your cloud
Too blind to survive
Makes you feel worse
Why can't you see you've got nothing on me
I am a sleeper well
There goes the world
Some say I
I tried to take you down
So many days
Of feeling down
I'm amazed
And I'm too proud
You're too late
And I'm too loud I know your world
Some say I
I tried to take you down
No, I'd never take the time
I'd never take the time
Out of the night
So
So heavy-eyed
Sounds familiar
Why can't you see you've got nothing on me
Such a feeble man
And if you find
Harder to define
Pack your teeth and run
But don't run for me
There's a position to fill
It's a stealer
Yeah There goes your world
Some say I

I'll try to take you down
No I'll wait to see it all
See it all come down
On you
I'll see it all
come down on you
