

Wild Child

Elen Levon

Feet in the sand
Waves are high
And I ain't got no care in the world that's right
Take a dive into the other side
I don't know what's waiting there
But I'll be alright
One only lives if you go to point break
And I'll take you there if you love my mistakes
Ready or not, here we go, might get a little messy
I'm gonna be your one only one wild child
You need to give in into the riptide
Let me take you on on an endless ride
Gonna be your one only one only one only wild child
Hey hey hey
Wild child
Gonna be your one only one only one only wild child
Yeah let's escape
While we are young
Come on let's give them something to talk about
Paddle out, point of no return
I know that we will catch infinity on the run
One only lives if you go to point break
And I'll take you there if you love my mistakes
Ready or not, here we go, might get a little messy
I'm gonna be your one only one wild child
You need to give in into the riptide
Let me take you on on an endless ride
Gonna be your one only one only one wild child
Hey hey hey
Wild child
Hey hey hey hey
Wild child
Hey hey hey hey
Wild child
Gonna be your one only one only one wild child
When it all falls into place
Let your love get carried away
It's not a dream don't let it fade
Catch the wave
I'm gonna be your one only one wild child
You need to give in into the riptide
Let me take you on on an endless ride
Gonna be your one only one only one wild child
One only one wild child
You need to give in into the riptide
Let me take you on on an endless ride
Gonna be your one only one only one wild child
Hey hey hey
Wild child
Hey hey hey hey
Gonna be your one only one only one wild child

Hey hey hey hey
Wild child
Hey hey hey hey
Gonna be your one only one only one wild child
