Alien 8

Lagwagon

Would it make you feel much better
If it was you against the world
If you were an alien
If it were conspiracy
and would it hurt to live in comfort
If you found someone to trust
If you knew that you were with us
If we shared a common goal
But you will isolate, alienate
No one can appreciate
the poor miss understood
Can you see that I don't care anymore
Do you ever stop to listen
Are you a martyr for your pride
Does it makes you fell much better
When you are an alien?
