

# Fear In Me

## Fingertight

...And the fear in me  
Is what keeps me up at night  
And your killing me  
But it makes me feel...  
Not here for the revolution  
Not here for the new solution,  
Not here to justify  
When you came back our mothers cried,  
Im just a bitter man who came up with the better plan  
In case your wonderin, im fine,  
Im doin just the best that I can,  
The fear in me,  
How its what keeps me up at night,  
And your killing me,  
Oh but it makes me feel alive  
And the fear in me,  
How its what keeps me up at night,  
And your killing me...  
Not part of my generation,  
Not here for the new temptation,  
Not here to testify  
When you came back to watch us die,  
Im just a bitter man who came up with the betta plan

In case your wonderin, im fine! Im doin just the best that I can!!!

(Chorus)

This is for all of you,  
(the ones that believe in me)  
This is for you and me, alone  
(the ones that are here for me)  
This is for all of you want my friends to feel  
(the ones that believe in me)  
This is for you and me, alone  
(the ones that are here for, me)  
You stumble down the line  
(You should've, you should've, you should've)  
You stumbled on my lie again  
(You should've, you should've, you should've)  
You stumbled down the line!!!

And everything was so perfect until I found my fear...

(Chorus)

It makes me feel, alive

(your killin!!!)
