

# The Kids Will Have to Pay

## Voodoo Glow Skulls

I want to know your definition  
It seems you have a lot to say  
You come up with all those stupid questions  
Who made you the expert anyway? And now you want to cut us off  
Because you said we've changed from yesterday  
What ever happened to the good ole' days?  
You'd go to a show, shut up and pay We admit that we're ignorant  
But do you think we give a shit?  
If they want to see us play  
All the kids will have to pay We've been on tour since 1988  
Travel around from coast to coast  
Friendly faces always come and go  
And all the purists don't participate We admit that we're ignorant  
But do you think we give a shit?  
If they want to see us play  
All the kids will have to pay Way back when we started all this fuss  
No one cared or even gave a fuck  
And all these modern critics of today  
Were in their pampers, we were getting paid I want to know your definition  
It seems you have a lot to say  
You come up with all those stupid questions  
Who made you the expert anyway? We admit that we're ignorant  
But do you think we give a shit?  
If they want to see us play  
All the kids will have to pay We admit that we're ignorant  
But do you think we give a shit?  
If they want to see us play  
All the kids will have to pay They'll pay, they'll pay  
They'll pay, they'll pay
