We Are All Palestinians

Unity Pacific

It's raining fire from the sky,
Nowhere to run nowhere to hide
Who will fall, and who'll survive?
That's the reason why,
In our thousands, and in our millions
We are all Palestinians
In our thousands, and in our millions
We are all Palestinians

I hear the children scream at night,
And the moaning sound of a mothers cry
As in her arms her baby dies
And that's the reason why
In our thousands, and in our millions
We are all Palestinians
In our thousands, and in our millions
We are all Palestinians

I see a boy pick up a stone,
As the tanks blow up his home
Well, he's not standing there alone
Let me tell you why
In our thousands, and in our millions
We are all Palestinians
In our thousands, and in our millions
We are all Palestinians

From far away as we may be,
Over land and over seas
We stand in solidarity
Let me tell you why
In our thousands, and in our millions
We are all Palestinians
In our thousands, and in our millions
We are all Palestinians

Well there's one thing that's clear to me;
'Till the day that Palestine is free
This world will never be at peace (no, no)

Peace
