

Desperate

Zeroes

Wind cracks, earth shakes
Machine guns serenade
Have faith it just might be okay
Live hard, survive another daySnakes parade the landscape
Sheets of ice cascade
Have faith it just might be okay
Live hard, live on and...This is a call to another way of lifeDesperate
Patient but desperate
Desperate
Trusting but desperateHail and sleet and tidal waves
Smash into the hurricane
Have faith it just might be okay
Live hard, survive another dayAshes rain, sky ablaze
Desert weeps, oceans drain
Have faith it just might be okay
Live hard, live on and...This is a call to another way of lifeDesperate
Patient but desperate
Desperate
Trusting but desperate
Desperate
Believing but desperate
Desperate
Hopeful but desperate(aye ya, ya, ya)
Stare into the night
Bend into the light
Die a thousand times
Live a single life
Defy itDesperate
Patient but desperate
Desperate
Trusting but desperate
Desperate
Believing but desperate
Desperate
Hopeful but desperateAshes rain, sky ablaze
Desert weeps, oceans drain
Have faith it just might be okay
Live hard, live on and...
