

Sea of Love

Def Leppard

Bow to the man who gets to
Give with what he can
Kneel to the universal mother
Say a prayer for that child
Where no one cares
Give a hand to help your brother
We got need for the greedy
And greed for the needy
We eat to feed on one another
Warmth for the chosen
Only fear the frozen
Sincerity lives undercover
Set adrift on the Sea of Love
Ride on the breeze
With only heaven above
You'll be sailing the Sea of Love
Open your mind
Be careful what you find
Hail to the love with only
Love to discover
A broken heart for consolation
Bread for the winner
Others starve for their dinner
The noble cause is in vain
Try breaking while your's not
Beating
Try bleeding when you start
To feel
Try crawling while the sky
Is falling
Try walking while you're
Standing still
Unlock your mind and let your
True love shine
Keep yourself alive take your mission
To survive
Open your mind believe in what
You find
