Outro

Lil' Mo

Just 'cause this is the end
Don't mean it gotta be over
Shoot we friends now, partner
Ooh based on a true story
You can say you really know me
Hope you feel what I go through
('Cause I'm just like you)
Home girls and relationships
(All day)
Cannot forget the kids

(Every day)
Beginning to the end I gave you my life, my heart, my story
My life, my heart, my story, my everything to all of you
Is all of me, my story, my everything
(All of me, everything, ooh)
My life, my heart, my story, my everything to all of you
(My heart, my my story)
(Everyone, everywhere)
Is all of me, my story, my everything
