

# Finical Fatalist

## Plague Vendor

Gonna drive, drive, drive  
Gonna drive my car  
Off a cliff when I run outta gas  
Drive, drive, gonna drive my car  
Off a bridge when I run outta gas  
We drive, drive, drive my car  
Off a cliff when I run outta gas  
We drive, drive, drive my car  
Off a bridge when I run outta gas  
We loaded up a thousand diesel trucks  
Bottles of gin and hydro ten  
The body shock shaken, still they're ready to begin  
The conductor shouts and we let 'em all in  
I'm gonna drive, drive, drive  
Gonna drive my car  
Off a bridge when I run outta gas  
We drive, drive, gonna drive my car  
Off a bridge when I run outta gas  
We drive, drive, gonna drive my car  
Off a cliff when I run outta gas  
We drive, drive, gonna drive my car  
Off a bridge when I run outta gas
