Can't Get Through

[The Briefs](#)

We the people had our fill
We can't take it no more
We want to beat you in your brains
And kick you out the door
We can't seem to get throughLet the DJ's hang themselves
Because it serves them right
The radios pollute the air
Let's burn them all tonight
We can't seem to get throughNow no one likes your stupid songs
We don't want your control
We don't like being forced to swallow
Boring rock n roll
We can't seem to get through
We can't seem to get through
