

Time

Mercyful Fate

Minutes and seconds are passing us by

Minutes and seconds are passing us by

Time... time

Minutes and seconds are passing us by

Time... timeTime... time... time is always passing by

Doesn't matter where you are

Time is passing us by

What a beautiful moment

If you're willing to trade

Then I'll give you a moment of mine

Give you a moment of mineMinutes and seconds are passing us by

Minutes and seconds are passing us by

Minutes and seconds are passing us by

(time will never stand still)

Minutes and seconds are passing us by

Minutes and seconds are passing us by

(time will never stand still)Time... time... time is always passing by

Doesn't matter where you are

Time is passing us by

What a beautiful moment

If we took it away

We could use it on some other day

Use it on some other dayTime is here, time is now

Time is here, time is nowSolo: dTime will kill... time will heal

Time will come and go away

But time will never stay... time will killSolo: sTime will heal... time will killMinutes and seconds are passing us

by...
