

# See Saw

**Devendra Banhart**

Your head's a see saw it sees and then saw  
Now get some extra fingers growing  
Yeah, get some extra fingers growing  
In, in, in Your eyes are ramble light of candle  
Now get some amber fluid flowing  
Get some amber fluid flowing Your lips are graying and your mouth is saying  
Get some other diamond sparkling  
Get some other people talking You young, dumb ripe thing  
You're, you're brave and you're antsy  
You strong lunged new thing You're here to get this baby dancing  
You're here to get this baby dancing  
You're here to get this baby dancing You're here to get this baby dancing  
You're here to get this baby dancing  
You're here to get this baby dancing I always knew  
I always knew  
I always knew
