## Gold

## **Jace Everett**

I been up and down this lonely town
Never found what I was needing
Running out of leads and possibilities
Never thought I'd see just what I'm seeingIt took a while to get through
All of my bad luck
Ever since I met you
I feel like I've just struck goldBaby, when it comes to love
You know you've got the Midas touch
It's goldThat heart incide of you

It's goldThat heart inside of you Is 24 carat through and through

Just keep on doin' what you're doin'

It's goldYour angel face

How you say my name

That magic way, your kisses lingerThat sexy laugh

And that look you have

It's all got me wrapped around your fingerI don't wanna fall asleep

Don't wanna close my eyes

'Cause all night long I wanna keep

Watching you shine like goldBaby, when it comes to love

You know you've got the Midas touch

It's goldThat heart inside of you

Is 24 carat through and through

Just keep on doin' what you're doin'

It's goldYeah, it took a while to get through

All of my bad luck

But ever since I met you

I feel like I've just struck goldBaby, when it comes to love

You know you've got the Midas touch

It's goldThat heart inside of you

Is 24 carat through and through

Just keep on doin' what you're doin'

It's gold

It's goldGod, everything you do

Is making me fall in love with you

It's gold
