Melancholy Sky

Goldfrapp

late into the night
comes a glow like ice
number's on my phone, i don't recognize
there in black and white
all your twisted thoughts
brutal starry eyes
stuck inside your head
fallen from the sky
risen from the dead
views from all the past
taken to new heights
melancholy sky
you made me blue
still hanging on
there's nothing i can do

not this time
there you are again
calling from the hills
haunted and the damned
from imagined worlds
it's too late my friend
i don't love you anymore
melancholy sky
you made me blue
still hanging on
there's nothing i can do
melancholy sky
still hanging on
you're crazy now
i didn't do you wrong
not this time
