

# Naked

Leona Lewis

You could've left me on a Friday  
Would've loved to at least have the weekend  
To go under and stay under to  
To get better and to stay better But you had to pick a Monday  
Now I've gotta go to work and get  
Through five days  
And get through it, if I can do it, no, I can't do it There's a heartbreaking chill running through my bones  
Got my clothes but I can't really feel them on  
Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere  
Covered up but I'm still watching people stare  
Oh no, now what can I do? I'm naked, I'm naked without you Trying to focus to go unnoticed  
But the harder I try to stay dry, it rains  
And I can't do it, no, they see through it  
Yeah, they see through it There's a heartbreaking chill running through my bones  
Got my clothes but I can't really feel them on  
Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere  
Covered up but I'm still watching people stare  
Oh no, now what can I do? I'm naked, I'm naked without you Inside, I'm still hiding  
Outside, I'm just too exposed  
But I know that I should let go  
But I miss you There's a heartbreaking chill running through my bones  
Got my clothes but I can't really feel them on  
Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere  
Covered up but I'm still watching people stare  
Oh no, now what can I do? I'm naked, I'm naked without you
