On The Other Side

Augustana

Put your hand in mine, can you read the sign?
I'll never lose you, I couldn't choose to if I tried
Put your faith in me, what will be will be
Some things I know it, I know that you were meant for me
I don't know where the ocean meets the sky
I don't know why the world keeps spinning by
Don't know why the hours move so slow
Babe, when I'm with you, I don't wanna know
Wanna feel your feet lifting off the ground
I wanna feel you love me at the speed of sound
Babe, it could end tonight, know it would be alright
'Cause I'm gonna love you somewhere on the other side
It's written on your face just like a twist of fate
I can't erase it, some things you know we can't escape
And I don't know where the ocean meets the sky
I don't know why the world keeps spinning by
Don't know why the hours move so slow
But when I'm with you, I don't wanna know
I wanna feel your feet lifting off the ground
Wanna feel you love me at the speed of sound
Babe, it could end tonight, know it would be alright
'Cause I'm gonna love you, somewhere on the other side
And I will be there for you, be there to shelter you
Anywhere you go, know I will be
And I'm gonna be the one, be like the rising sun
Never hurt you
And I don't know why the stars fall from the sky
I don't know why the heaven's open wide
Don't know where the winds of change will blow
But when I'm with you, I don't need to know
I wanna feel your feet lifting off the ground
Wanna feel you love me at the speed of sound
Babe, it could end tonight, know it would be alright
'Cause I'm gonna love you somewhere
I wanna feel your feet lifting off the ground
Wanna feel you love me at the speed of sound
Babe, it could end tonight, know that it would be alright
I'm gonna love you somewhere on the other side
I'm gonna love you somewhere on the other side

I'm gonna love you somewhere on the other side
