It Was Our Day

B*Witched

Eight o'clock on the morning that you left
The day was dark, I sat in my room
They walked in and told me that you'd gone
That moment on I knew you'd be our angel
Knew you'd be our angel (angel)That day I spent
Was the hardest day ever
Trying to paint a picture for you
Before my eyes
There's so many colors
Just for today they all seem blueHeaven, heaven was calling you
Heaven, heaven needed youWe'll join our hands again someday
(We'll join our hands)
And trade kisses before night (night)
And talk of the times we had
We'll be together oh someday
(We'll be together)
And watch over the stars at night (night)
And laugh at the fun we had
It was our day
Oh! YeahI'll lay a rose
Beside you forever
And light a candle to remind me of you
Here in my heart
You'll be on my journey
Wherever I go, whatever I doHeaven, heaven was calling you
Heaven, heaven needed youWe'll join our hands again someday
(We'll join our hands)
And trade kisses before night (night)
And talk of the times we had
We'll be together oh someday
(We'll be together)
And watch over the stars at night (night)
And laugh at the fun we had
It was our dayOh our day
