

# Fireflies

## The Dear And Departed

Before you met me I was a fairy princess  
I caught frogs and called them prince and made myself a queen  
And before you knew me I'd traveled 'round the world  
I slept in castles and fell in love because I was taught to dream  
I found mayonnaise bottles and poked holes on top  
To capture Tinker Bell  
And they were just fireflies to the untrained eye  
But I could always tell  
I believe in fairy tales  
And dreamer's dreams like bedsheet sails  
And I believe in Peter Pan and miracles  
Anything I can to get by and fireflies  
Before I grew up I saw you on a cloud  
I could bless myself in your name and pat you on your wings  
And before I grew up I heard you whisper so loud  
Well life is hard and so is love child, believe in all these things  
I found mayonnaise bottles and poked holes on top  
To capture Tinker Bell  
And they were just fireflies to the untrained eye  
But I could always tell  
I believe in fairy tales  
And dreamer's dreams like bedsheet sails  
And I believe in Peter Pan and miracles  
Anything I can to get by and fireflies, fireflies  
Before you met me I was a fairy princess  
I caught frogs and called them prince and made myself a queen  
And before you knew me I'd traveled 'round the world  
And I slept in castles and fell in love because I was taught to dream
