

# The Way We Shine

## Bratz

The way we shine, the way we shine,  
The way we shine, the way we shine....The way we shine,  
Look at me and you,  
Everything we say,  
Everything we do,  
Sharing every smile,  
And the world can see....The way we shine,  
Everywhere we go,  
Havin' fun together,  
And we let it show,  
'Cause we shine in style,  
All my friends with me....Bein' who we are,  
Just the way we like,  
Everyone's a star,  
Once we realize,  
We can reach any dream,  
Everyone can see,  
Believe in ourselves,  
Everyone can tell....Gotta celebrate,  
Our individuality,  
You're the only you,  
And I'm the only me,  
We can reach any dream,  
Everyone can see,  
Believe in ourselves,  
Everyone can tell....The way we shine,  
Look at me and you,  
Everything we say,  
Everything we do,  
Sharing every smile,  
And the world can see....The way we shine,  
Everywhere we go,  
Havin' fun together,  
And we let it show,  
'Cause we shine in style,  
All my friends with me....The way we shine, the way we shine,  
The way we shine, the way we shine....The way we shine, the way we shine,  
The way we shine, the way we shine....Bein' who we are,  
Just the way we like,

Everyone's a star,  
Once we realize,  
We can reach any dream,  
Everyone can see,  
Believe in ourselves,  
Everyone can tell....The way we shine,  
Look at me and you,  
Everything we say,  
Everything we do,  
Sharing every smile,  
And the world can see....The way we shine,  
Everywhere we go,  
Havin' fun together,  
And we let it show,  
'Cause we shine in style,  
All my friends with me....
