Tesla

Geode

Tesla
Brought the X-ray photo to the world
Brought the AC power to the worldHere is a mind
That can see across space
Here is a mind soaring free
Sound turns to light
And light turns to waves
And waves turn to all things perceivedMaybe that knowledge would drive one insane
How can that knowledge be tamed?Tesla
Ushered the radio wave into the world
Ushered the neon light
Into the worldThe Hotel New Yorker
He's dead on the floor
The body of Nikola lies
With just his papers
No family to tell
Out of the windows birds flyUnder an X-ray of Mark Twain's skull
The plan for the death-ray's designTesla
Brought the radar detection to the world
Ushered remote control
Into the world
Ushered the bladeless turbine
Into the world
Ushered the neon light
Into the world
