

I Don't Care (1997 Remastered Version)

[Helen Shapiro](#)

You gone and found somebody new
And let me lonely
I go around with somebody new
But I dont care What a fool I was to think you were true
I loved you only
I never thought wed ever go through
But I dont care Guess, Ill have to start going places
Look around and find some new faces
Ill be pickin over the traces
I dont care what happens to me Youre not the only fish in the sea
So Im not waitin
Dont you think youre gonna come back to me
For I dont care Now, I know that all is said and done
You will always be the only one
Talkin to yourself is never fun
I must run to someone new What a fool I was to think you were true
I loved you only
I never thought wed ever be through
But I dont care Guess, Ill have to start going places
Look around and find some new faces
Ill be pickin over the traces
I dont care what happens to me Youre not the only fish in the sea
So Im not waitin
Dont you think youre gonna come back to me
For I dont care, I dont care, I dont care
