

# Catch the Breeze

## Slowdive

Feels like all the days are gone  
Just catch the breeze, you know it had to fall  
Rain washes, ways down And I, I want the world to pass  
And I, I want the wind to fly  
You can believe in everything  
You can believe it all Hey, are you feeling something new?  
Just watch the rain it helps in all you do  
The breeze, it blows, it blows everything And I, I want the world to pass  
And I, I want the sun to shine  
You can believe in everything  
You can believe it all
