

# I Believe

[Andy Williams](#)

If you should hear that someone new  
Has eased the pain of losing you Don't you believe it, not for a moment?  
Don't you believe it because it isn't true? Those angry words that made us part  
Put out the flame that's in my heart Don't you believe it, not for a moment?  
Don't you believe it because it isn't true? I haven't changed, I still love you  
And it will always be I only hope and I pray each night  
You'll feel the same about me So if you hear some false alarms  
Like you're not welcome in my arms Don't you believe it, not for a moment?  
Don't you believe it because it isn't true? Oh, how I still love you
