Just Imagine

Actuel

Just imagine if you were my girl
Two crazy kids that could take on the world
You owe me nothing, just living on love till the end
Now imagine that I'm your boyfriend
I'll put you first, give you all that I can
Treat you like treasure
I'll do it forever and againAll the great romances they don't know about love
Romeo and Juliet gon' wish they were us
Let's show them what we're made ofI want us to look back and see
We wrote the book girl you and me
It's all about true love meant to be
Just imagine, just imagine
The first chapter starts tonight
In the story of you and I
Come on we got pages and pages to write
Just imagine, just imagineI imagine in ten thousand days
We'll look around and the whole world has changed
I'll guarantee you I'll still feel the same
'Cause in this moment with you standing here
There's just no question it's all crystal clear
It doesn't matter what anyone else has to sayAll the great romances they don't know about love
Romeo and Juliet gon' wish they were us
Let's show them what we're made ofI want us to look back and see
We wrote the book girl you and me
It's all about true love meant to be
Just imagine, just imagine
The first chapter starts tonight
In the story of you and I
Come on we got pages and pages to write
Just imagine, just imagineI want us to look back and see
We wrote the book girl you and me
It's all about true love meant to be
Just imagine, just imagine
The first chapter starts tonight
In the story of you and I
Come on we got pages and pages to write
Just imagine, just imagineJust imagine if you were my girl
Just imagine, just imagine
The first chapter starts tonight

Just imagine, just imagine
It's true love meant to be
Just imagine, just imagine
It's true love meant to be
Just imagine, just imagine
