Signs & Signifiers

JD McPherson

I?ve got signs and signifiers
Gossipers and liars
Twist me every way they wanna go
What looks like a raging fire
Are your dreams and desires
Endin? up like ashes on the ground
If you?ll consider me a chance
To falter through our dance
Then the other ones may just leave us alone

Ooooooooo (x6)

I made a really sacred vow
To never ever do without
And be with you
Until our time is runnin? out

I?ve got signs and signifiers
Gossipers and liars
Givin? up and finally letting go
What looks like a raging fire
Is my unquenchable desire
To be with you until forever more
If you?ll consider me a chance
To falter through our dance
Then the other ones may just leave us alone

Ooooooooo (x6)
