

# Chase It (feat. Savoi)

## WRLD

Cause we got wasted, we got wasted,  
And we chased it, we chased it  
Cause we got wasted, we got wasted,  
All the time  
And we chased it, we chased it  
All night  
Cause we got wasted, we got wasted,  
All the time  
And we chased it, we chased it  
Been trying to work out what we did just the other day (just the other day)  
Don't give it up, don't give it up to care  
Been trying to work out what we did just the other day (just the other day)  
Don't give it up, don't give it up somewhereCause everyone I'll see,  
And everyone I'll know  
Do care for the places that we go  
Cause we got wasted, we got wasted,  
All the time  
And we chased it, we chased it  
All night  
Cause we got wasted, we got wasted,  
All the timeAnd we chased it, we chased it  
(Hold on, hold on) [x4]We've been running for days without no sleep  
Just to find all the faces in the street  
We've been running for days without no sleep  
Just to find what it is (hold on)
