Another

Heroin

This is what you get, for being ordinary.
This is what you get.
For too many choices. For security.
This is what you get, but it's all.
You let it happen to you; let it happen; you exist only of your own will.
So this is what you get as seen in the figures.
Set for life, a technicality.
Good for you. For having.
You don't want at all, this is what you get, yourself.
You have to live with yourself or not at all.
