When You Grow

Bernard Butler

When car lights flash on your face
Your kind heart will give you away
Don't keep us apart, don't lead us astray
Don't leave it too lateWhen darkness keeps you awake
And demons lead you astray
Don't keep us apart, don't leave it too late
Don't you take this awayAnd when you grow, I'll give you away
I'll lead you my way, I'll shield you from pain
Then when you're low, I'll see that you're safe
I'll shield you from painWhen God's love gets in your way
Remember child how you were made
Don't keep us apart, don't lead us astray
Don't you leave it too lateAnd behind this explanation
Lies the sweetest inspiration
Won't keep us apart, won't lead us astray
I'll keep the demons at bay, heyAnd when you grow, I'll give you away
I'll lead you my way, I'll shield you from pain
And when you're low, I'll see that you're safe
I'll shield you from painAnd when you grow, I'll give you away
I'll lead you my way, I'll shield you from pain
And when you're low, I'll see that you're safe
I'll shield you from pain, painAnd when you grow, I'll give you away
I'll lead you my way, I'll shield you from pain
Then when you're low, I'll see that you're safe
I'll shield you from pain
