

# Bigger Than Me

Katy Perry

(I can feel it) (happening) (I can feel it) (happening) (I can feel it)  
Can't go with the flow, got to make waves  
Even though, I look at the sand I'm just one grain  
But my intuition says there's a bigger mission  
I must embrace  
So I'm, I'm pushing my thoughts to a new place I'm kicking and screaming, 'cause it won't be easy  
To break all the patterns  
If I'm not evolving, I'm just another rumor  
Taking up extra thread It's something bigger than me  
I can feel it beaconing  
Something bigger than me  
Yeah, I can feel it opening To, to ignore it, but it keeps on growing out of control  
It's something bigger than me  
I can feel it happening So I'll speak my truth  
Though my voice shakes  
Try to summon the strength  
To look fear in the face But I'm kicking and screaming, 'cause it won't be easy  
To break all the patterns  
If I'm not evolving, I'm just another rumor  
Taking up extra thread It's something bigger than me  
I can feel it beaconing  
Something bigger than me  
Look, I can feel it opening To, to ignore it, but it keeps on growing out of control  
It's something bigger than me  
I can feel it happening (happening) (I can feel it) (happening) (I can feel it) (happening) (I can feel it) It's  
something bigger than me  
Something bigger than me  
I can feel it opening To, to ignore it, but it keeps on growing out of control  
It's something bigger than me  
I can feel it happening (happening)  
(I can feel it) (happening) (I can feel it) (happening) (I can feel it, I can feel it)
