

# Cold Vermouth

## Omni

Need to feel alive  
Come to feel a  
Certain grief than I'd like to allow  
It's all erratically great, ecstatically  
The darker the leaf  
Then you're slated now I've never taken something so lightly  
It's the cold Vermouth  
It's the truth  
Now sing  
Construct a real love, something real love  
Contemporary in its values and what not  
This time let's spend somebody content with  
Trying on jeans and get on with the show I've never taken something so lightly  
It's the cold Vermouth  
It's the truth  
Now sing, now sing, oh  
I've never taken something so lightly  
It's how it's how we've sinned  
That's when it begins  
Now sing Take another step  
Take another step Need to feel alive  
Come to feel with  
A sense of aesthetic and [?]  
I've never taken something so lightly  
It's the cold Vermouth  
It's the truth  
Now sing  
It's how we've sinned  
That's when it begins  
Now sing
