

We Believe

Newsboys

I can't turn on my TV without
Seein' some new somebody who's
Smilin', stylin', tryin' to be the next big thing
Who says, who does or doesn't get to get ahead
And who's left with nothin', who get's to wear the big brass ring
Somebody's gonna set the world on fire
Somebody's gonna fly a little higher than they dreamed
Somebody get's a blessing from above
Somebody get's to live the life they love
Somebody, might as well be me
The way I see it, I got a pretty good chance
At being who I wanna be and gettin' where I wanna go
I ain't lettin' nothin' stand in my way
Ain't no reason I can't find somebody who believes in me
Knows how to love me, it happens every single day
Somebody's gonna set the world on fire
Somebody's gonna fly a little higher than they dreamed
Somebody get's a blessing from above
Somebody get's to live the life they love
Somebody, might as well be me
Somebody's gonna set the world on fire
Somebody's gonna fly a little higher
Somebody, somebody
Somebody's gonna set the world on fire
Somebody's gonna fly a little higher than they dreamed
Somebody get's a blessing from above
Somebody get's to live the life they love
Somebody, might as well be me
Somebody
Might as well be me
