Texas Cult Song

Grim Skunk

I'm not a man
I'm God's only son
Humanity is sick
And work needs to be done
If you want to follow me
Surrender yourself
I will make you free
Some people think they always know what's going on
Can never admit they said something wrong
Then one day they are exposed
They lose control, they let it all explodes
So it was decreed
By the lawmakers supreme
Bring them to their knees
Set them under age
We'll stand our ground
And fight for what we think is right
And we ain't gonna play by your rules
Or obey your laws
If you want to, you can come and get us
But you'd better be ready
'cause we'll fight and we'll never surrender
And we're ready to die
And we're going to burn everything to the ground
