

# Feel Fear

Matthew Sweet

Sun going down and fading me out with it  
Chances are we'll both come around again  
So I let it be, see, no one else but who is in front of me?  
There is no one special you need to be, it's only me  
Feel fear, feel fear, do you believe, deceive yourself?  
Don't you realize you can't be saved?  
Feel fear, feel fear, do you believe, deceive yourself?  
If you can't feel fear, you've gone insane  
And away from anything that you know  
Doesn't sound like so very far to go  
But it's a million miles away  
Just because you can't see another way  
'Cause you're not sure what I was going to say  
Before you cut me off  
Feel fear, feel fear, do you believe, deceive yourself?  
Don't you realize you can't be saved?  
Feel fear, feel fear, do you believe, deceive yourself?  
If you can't feel fear, you've gone insane  
I'm still listening to the wind, it's all I hear  
I'm still turning inside out to love you, dear  
Sun going down and fading me out with it  
Chances are we'll both come around again  
So I let it be  
Feel fear, feel fear, do you believe, deceive yourself?  
Don't you realize you can't be saved?  
Feel fear, feel fear, do you believe, deceive yourself?  
If you can't feel fear, you've gone insane  
Feel fear, feel fear, do you believe, deceive yourself?  
Don't you realize you can't be saved?  
Feel fear, feel fear, do you believe, deceive yourself?  
If you can't feel fear, you've gone insane  
Feel fear, feel fear, feel fear
