

# Little Girls Pointing And Laughing

[Alexisonfire](#)

(We can't)  
I still can  
(Stop now)  
Remember what you did.  
Your eyes filled  
(We've got)  
Discomfort  
(To slow down)  
Bare foot in a public washroom. Spill on me your nostalgia  
And cataracts  
That fell  
Behind self-conscious eyes. Warm water made  
(Please just give me back my heart)  
This hurt so good  
(Well it's been too long)  
Through ivory rain  
(And I will burn no more)  
And cutthroat soap box derby racers (Oh God. Hurt so fucking good. Little girls pointing. Pointing. Pointing and  
laughing.) I want you to ruin me.  
(Please just give me back my heart)  
Ruin me.  
(Well it's been too long)  
I. Want. You. To ruin me.  
(And I will burn no more)  
(Tired of all these lies)  
I. Want you. To ruin me.  
(And elsewhere eyes of yours)  
Ruin me.  
(So I will scream)  
I want you to  
(And dream of what's to come)  
Ruin me.
