Settle Down

Unbelievable Truth

You don't move from that graceful pose
And I never want to close my eyes
Every move that I make is phoney
And every word I say is lies
Settle down
You never want to see me drown.
You don't move from that graceful pose
You see all my mistakes
You learn from my mistakes
Every move that I make is phoney
And every word I say
Just makes me want to take you down
You never want to see me drown
Settle down
And if you move I'm following you
Wherever you go.
